

Moldex3D R10 SP1 Preview: Enhanced Material Select Functionality

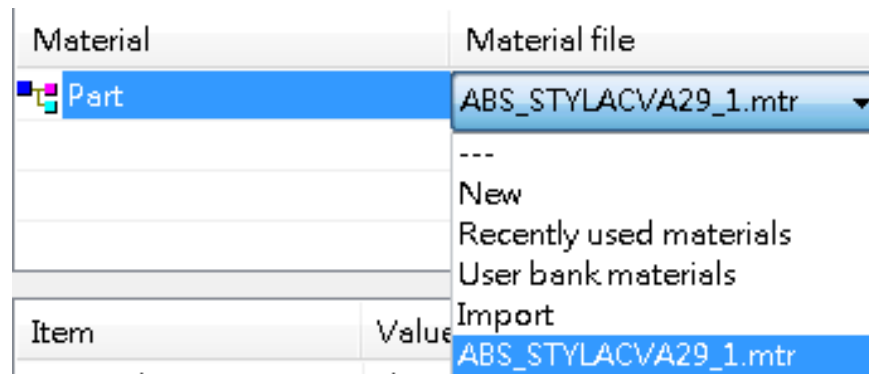

Moldex3D – TIPS_10046

2010/12/31

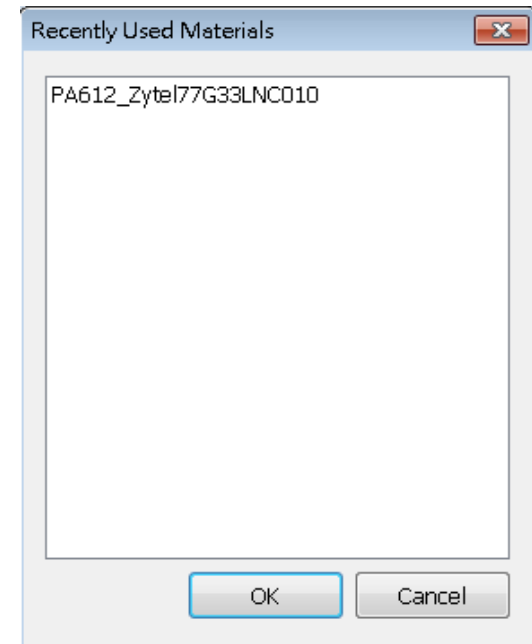

CoreTech System Co., Ltd.

www.moldex3d.com

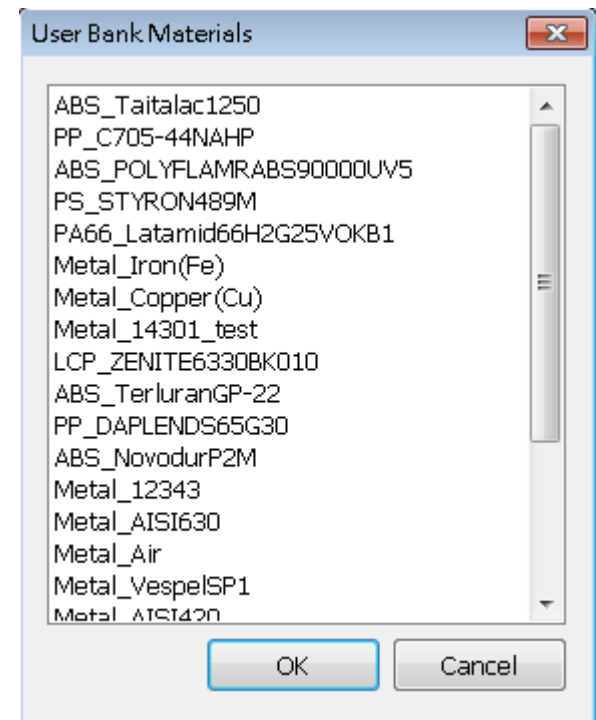

- > In the upcoming Service Pack, the material selection in Moldex3D becomes more flexible.
- > Two new options are available for users to find out their own material easily:
 - > Recently used materials
 - > User bank materials

- > **Once this function is selected, a pop-up window will be shown allowing users to choose the materials recently used in other projects.**
- > **For users who have preferences of material grades, this function can save a lot of time to find the grades they want.**

- > **Once this option is selected, an individual window will be shown and it will directly link to User Bank Material.**
- > **Users can find the material grades they want in User Bank without activating Material Wizard.**

***Thank You and
Happy New Year !!***
